

KINGSWAY REGIONAL HIGH SCHOOL
SOPHOMORE ELECTIVE REQUEST FORM - 2011 - 2012

Below is a list of courses required for every sophomore attending Kingsway Regional High School. The levels at which your student will be placed will be determined by his or her level of achievement during semester one of this school year.

Physical Education/Health English Science Mathematics History

In addition to these required courses, **your student must choose three (3) electives or two (2) electives and one (1) study hall** to complete the remainder of his or her schedule. The State of New Jersey requires that high school students pass **5 credits in world languages; 5 credits in visual and performing arts; and 5 credits in career education; consumer, family, and life skills; or vocational-technical education** by the time they graduate. Students should fulfill these important and necessary requirements as soon as possible to eliminate any possible scheduling problems that may occur in the future. See the *Course Selection Handbook* for specific, detailed information on course and graduation requirements. Below is the list of elective courses offered to sophomores. After reviewing course information from the *Course Selection Handbook* with your child (available online at <http://kingswayguidance.com/CSH.pdf>), please check off his or her elective choices. Please note that a student may not take a second year course (i.e. Art II) without having taken the prerequisite course (i.e. Art I). Please check the *Course Selection Handbook* for specific course prerequisites. **Please also note that the master schedule for the 2011-2012 school year will be set by the end of the 2010-2011 school year. At that time, no schedule changes (including electives) will be considered. It is imperative that both students and parents consider course choices carefully during the scheduling process, as there will be no changes to student schedules except for clerical error. Please refer to the Course Selection Book online at <http://kingswayguidance.com/CSH.pdf> for more information.**
